

testing::internal::
OsStackTraceGetterInterface

```
graph BT; A[testing::internal::OsStackTraceGetter] --> B[testing::internal::OsStackTraceGetterInterface];
```

The diagram illustrates an inheritance relationship. A white box at the bottom represents the class `testing::internal::OsStackTraceGetter`. A blue arrow points upwards from this box to a gray box at the top, which represents the interface `testing::internal::OsStackTraceGetterInterface`. This indicates that `OsStackTraceGetter` inherits from or implements `OsStackTraceGetterInterface`.
